

IPDPS'26 Presentation Guidelines for Authors

Presentation time:

- 15 minutes in-person presentation + 5 minutes for questions and next-speaker set-up
- Out of respect for attendees and other presenters, time limits will be strictly enforced.

Projectors and Audio/Visual support people will be available in every room.

Presentation tips for 15-minute talks:

- Goal: Interest people in your work so that they talk to you or read your paper afterward
- Focus on your key results - the most novel and important results
- Present your most important information first (in case you run out of time)
- Use large, clear fonts
- Avoid over-crowded slides and too many details
- Twelve slides with technical content is probably the maximum number feasible (8-10 is more realistic)
